AZCO: Pouch dispenser and cutting machine

Sur-Pak VIP-100 cuts and dispenses a wide range of brands and materials.

AZCO Corp.'s Sur-Pak™ model VIP-100 is a motor-fed precision-cutting machine. It is designed to cut and dispense a wide variety of materials of varying thickness fed from a continuous web and is suitable for desiccants, oxygen absorbers, food packs, or promotional items.

The latest design includes a timing screw, ensuring controlled and accurate insertion into bottles at a speed of 200 cycles/min. The cantilever design of the Sur-Pak VIP-100 allows for easy cleaning and servicing. Product changes can be made without the use of tools in 90 sec, with knife replacement done in 60 sec. The unit requires 110 VAC, 50/60 Hz, single phase, and a 30-90 PSI (2-6 bar) supply of compressed air.
