

## Heavy Duty, Adjustable Stands

PD&D Staff

This module stand from [Azco Corp](#) [1]. (Fairfield, NJ) is designed so that equipment can be easily mounted onto it and is ideal for many applications. A totally enclosed telescoping stand is rigidly constructed so there are no exposed mechanisms. Features include:

- A load capacity of up to 1,000 pounds.
- A clear anodized aluminum with a steel weldment base construction.
- An adjusting screw with a hand crank for height adjustments from 800 mm/31.5" to 1200 mm/47.2".
